

star webPRNT

Enables Printing from Web-Based Applications

To support customers using web-based point of sale applications, Star Micronics delivers WebPRNT, an innovative technology enabling device-agnostic receipt printing technology that supports HTTP requests used in web-based applications.

WebPRNT is currently available with Star's TSP650II thermal receipt printer which is equipped with Ethernet connectivity. Easy to read, maintain and modify for developers; simply use the appropriate XML tags or integrate Star's WebPRNT JavaScript library into your web-based application to begin printing from your application to Star's TSP650II WebPRNT thermal receipt printer.

In addition to web-based applications, Star's WebPRNT also supports HTTP requests from native applications.

Benefits

Ease of Use

WebPRNT eliminates the need to install drivers or download software. WebPRNT enables printing from any local device hosting a web-based or native application to the receipt printer.

Low Equipment Cost

Competitively priced, WebPRNT enables printing from any application compatible with all operating platforms without the need for expensive multi-platform development costs.

Integration

Simply integrate WebPRNT by sending easy to understand and maintain XML tags from your application or, if you are creating a web based application, use WebPRNT's ready-made JavaScript library, which can format and send the receipt data via a simple to use API. WebPRNT hosts an HTTP server that can accept HTTP requests enabling printing from a web-based or native application on any device or platform.

Compatibility

WebPRNT allows users to print from their application to a WebPRNT enabled receipt printer from any device (Mac, PC, tablet, smartphone, etc.) regardless of its operating platform (Windows, iOS, Android, etc.).

TSP650II WebPRNT Specifications

Features – Hardware: Fast: 300mm/second (60 Receipts Per Minute)
 Reliable Guillotine Cutter
 Horizontal and Vertical Use
 Drop-In and Print Paper Loading
 Logo Utility (Store Logos, Coupons, and Graphics)
 WebPRNT Communication JavaScript Based
 Recessed Cable Connections

Connectivity: Ethernet, WebPRNT (JavaScript Emulation)

What's included: Setup Guide
 Wall Mount Bracket
 Vertical Mount Pads
 58mm Paper Guide
 Power Switch Cover
 Start-up Paper Roll
 External Power Supply

Options: Splash Proof Cover (SPC-T100)
 Buzzer (BU01-24-A)
 Vertical Stand (VS-T650)

Technical Specifications:

Part Number 37963900
Print Method Direct Thermal
Print Resolution 203 dpi
Print Speed 300mm/second
Paper Width 80mm / 58mm
Paper Thickness 0.053 – 0.085mm
Paper Roll Diameter 83mm
Dimensions 140 (W) x 132 (H) x 203.5 (D) mm
Reliability:
 Printer MCBF 60 million lines
 Cutter 2 million cuts

Warranty: 3-Year Limited Warranty
